REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or suggest every feature or element as set forth in applicant's claims. In particular, the prior art of record fails to disclose or suggest a fold-type apparatus including a shaft defining a first axis mounted to a first unit allowing the first unit rotatable movement about the first axis. A swiveling member fixed onto a second unit and allowing the shaft and the first unit to swivel with respect to the second unit around a second axis perpendicular to the first axis. At least one projection member fixed onto the shaft and a control member fixed onto the second unit and having a sidewall surface, wherein at least a portion of the sidewall has a slanted surface and the projection member abuts the sidewall to restrict a movement of the first unit. The projection member is arranged and designed to swivel with respect to the control member when the first unit is in a first position such that the first unit turns about the second axis.

Hsu is considered the closest prior art reference. However, Hsu fails to disclose or suggest the specific arrangement as set forth in applicant's claims. In particular, Hsu discloses a projection member **33** being rotated about a first axis into engagement with a wall part **53** of a control member **4** but Hsu fails to disclose or suggest the ability of a projection member moving about the second axis or the swiveling movement claimed above. Therefore, applicant's claims, as described requires a specific arrangement and movement that Hsu lacks. Thus, applicant's claims are patentably distinct over Hsu and the combination of prior art references whether taken singly or used in combination and is determined to be in condition for allowance.

CONCLUSION

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
